## Expansion Begins At Royal Seating

The Royal Seating Corporation of Cameron, manufacturer of classroom furniture for schools and churches, is better than doubling the size of its present plant through a \$1,200,000 expansion program, announces Roy E. Jennings, president of the firm.

Site preparation has been completed and construction is now underway on an all steel building. Royal Seating will have a total of 75,000 square feet of manufacturing, shipping, warehousing, and office space when the addition is occupied in late October.

Jennings said the expansion was dictated by the encouraging acceptance of the firm's products and the rapid growth of sales in a twelve state area served by the firm.

Royal Seating anticipates a half-million dollars in sales during the current year, with a doubling of that amount expected by the end of 1970.

Officers, in addition to Jennings, are Roy Strasburger, Sr., vice-president, secretary and treasurer; and Jack N. Holland, vice-president sales.

Royal Seating Corporation was chartered in the summer of 1968. The firm's initial 32,500 square foot, fully automated base plant went into production in April of 1969.

The current expansion is the second phase of a four step, pre-planned building program on the Central Texas company's 17 acre site.

The colorful line of school desks, library tables, lab stools, teachers' desks, and chairs manufactured by Royal Seating is fully patented from both a design and a mechanical standpoint.

Royal Seating, classroom furniture is made for students from pre-school through college ages.

**SPECIAL PLASTIC**  
Featured in the line is a special, blended, high density impact resistant Copolymer plastic, used to form a seating shell which has been engineered to reduce student fatigue through both design and the comfortable flexure characteristics of the material.

The Copolymers seat and back also contain an anistat which, through retarding the formation of static electricity, reduces cleaning time because particles of dirt and dust are not electrically attracted to or adhered to the surface of the seat. The material is color fast and not affected by detergents.

The fully integrated manufacturing facility will be 120 feet wide and 600 feet long when the present expansion program is completed.

The plant will be a completely converted, highly automated straight through plant. Raw materials enter at one end of the building and emerge at the other as finished products. Reverse or turn-back to areas once passed during the manufacturing process is eliminated.

**LOADING AREA**  
The expanded portion of the plant will contain both manufacturing and warehouse space, and feature a 1200 square foot loading area.

Four dock high rail doors will open to a six car Southern Pacific Railway siding, and six dock high truck doors will accommodate motor freight vehicles with the loading area sheltered from the weather.

All electrical, telephone, and regular utility service coming to the plant is underground. An expanded off-street parking lot will be provided for employee's cars and delivery trucks.

Clear stacking space of 14 feet will reach to an insulated, skylighted ceiling.

The building will have a beige exterior to match the original unit and have a white finish on inside walls. Brick exterior trim and landscaping will highlight the expanded plant building.

Included in the expanded plant will be an automatic swager which forms leg assemblies from heavy steel tubing. The swager narrows to a point the portion of the leg which accommodates a castor or fixed position floor contact device.

Leg and frame assemblies at Royal Seating are coated with a mar-resistant epoxy enamel which is electrostatically applied for evenness. The enamel is then baked on in a 400 degree automated oven. Leg assemblies are made in adjustable and fixed heights.

Writing surfaces are made of a durable plastic laminate applied under high pressure to both sides of solid particle board. The decorative and wood grained laminate materials are not affected by detergents.

## Woman Assaults Arresting Officer

Cameron Police had almost more than they could handle Saturday night when they arrested a Dallas woman and her two companions for being drunk and disorderly at a Cameron service station.

Police filed assault charges after the woman kicked, scratched and bit the arresting officer at the police station. She was later released on a \$150 bond.

## \$9,300 Goal Set For United Fund

Cameron's United Fund Board heard requests from six agencies and set a goal of \$9,300 for the October fund drive.

Funding for the coming year will be \$1,800 for Girl Scouts, \$2,550 for Boy Scouts, \$2,100 for Salvation Army, \$2,400 for Red Cross, \$150 for U.S.O. and \$160 for the Teen Club.

Dana Kestenbaum, Fund chairman, said a kickoff dinner and two separate drives were planned.

Kickoff dinner will be at 7:30 p.m. Tuesday, October 7 at Cameron Country Club.

Fund drives will be October 8 through 10 in the business district and October 13 through 17 for the residential drive. He said workers are needed at this time to complete the planning.

CHARTER RENEWED — Ron Derry, Tejas Boy Scout Executive, presents charters for Lions Club sponsored Boy Scout Troops 713 and 783 to Lions President Jim Camp and Explorer Advisor Robert Maier. The Noon Lions Club has sponsored Troop 713 consecutive years.

## UF Benefits Boy Scouts

Derbies, camping and community service projects are all a part of Boy Scouting, and Boy Scouting is a big part of the Cameron United Fund.

The United Fund's drive for a \$9,300 goal will open October 8 with plans for downtown contacts and door-to-door workers in the residential areas. The fund budget will be divided between 6 local organizations.

Ron Derry, Tejas District Scout Executive, said 82 boys are presently registered in Boy Scouts. He said Cameron has potential for several more sections, units, and plans are under way to organize them and reorganize some units that have been dropped for lack of leadership this past year.

Post 713, sponsored by Cameron Lions Club has 34 Cubs, Fredrick Hornung is Cubmaster. Allen Hughes, Mrs. W. O. Harper, Rose Lee Mordrik and Mrs. Louis Elley are Den Mothers. Dean White is Webelos Den Leader for the 10-year-old Cubs. The Pack has a Pine Wood Derby scheduled for

September 29 and they are scheduled to receive the National Summer Pack Award for activities during the summer months.

Post 783, sponsored by Knights of Columbus, Hall 2134, has 22 scouts registered. Felix Matela is Scoutmaster, and assistants are Arden Anderson, John Peral and Oscar Zax. A continuous schedule of hikes, camping trips and community service projects makes this one of the most active troops in the Heart of Texas Council.

In addition to many weekend trips, the pack maintains an annual 4th weekend rest stop for travel. Matela has won the M.C. Cup in Cameron and was awarded the highest award that can be bestowed on a man for his service to Scouting by the local council.

Post 754, sponsored by Milam Broadcasting Co., has 9 explorers with Charles McGregor as Advisor. This was the first special interest post in the Heart of Texas Council.

## Gause School Tax Valuation Up 40%

Higher taxes are in store for Gause Independent School District property owners after the board of trustees raised 1969 valuations 40 percent.

The rate per \$100 valuation will be reduced from \$2 to \$1.75, with \$1.50 going for local maintenance.

The 773-square-mile school district counts about 120 students. Sixty children attend grades one through six at Gause and sixty seventh graders through high school attend school at Hearne.

Cost of sending students to Hearne, at \$55 per student, and the teacher pay raise were cited among needs for more funds.

The Gause faculty includes five teachers, two of whom are employed under Title I, and a principal. The students now attending Hearne schools at \$55 each could attend Cameron schools free. The distance would be about 24 miles, twice that traveled by the two buses used to transport students now.

Milam County School Supt. H. D. Maxwell said the tax raise will be "across the board," with some adjustments made by the district's equalization board.

Supt. Maxwell said Gause IED property valuations were originally based on county tax valuations, and were slightly increased several years ago.

The 40 percent hike in valuations will raise taxes about 25 to 30 percent higher than last year's decision to increase valuations was made by Gause trustees at an August meeting.

The Gause school had set a goal of \$9,300 last year, according to Supt. Maxwell, and the tentative budget for 1969-70 is about the same, "maybe a little less," he said.

Figures shown in the Bartlett Study of property taxes in Texas school districts show values in Gause lower than those in other Milam County districts.

The study was prepared by Charles R. Bartlett for the Governor's Committee on Public School Education and was published in March, 1969.

According to the Bartlett study, Gause ISD officially claims to assess property at 29 percent of its market value. According to the Bartlett estimates, the district actually assesses all classes of property at an average of 6 percent.

Undeveloped land (farm, ranch and timberland) in the district is assessed at an average of \$6 an acre or at 4 percent of its actual value, according to the Bartlett estimates.

Commercial and industrial property are assessed at an average of 11 percent of market value; business personal property (autos, trucks, merchandise, equipment, cattle, etc.) is assessed at 5 percent of market value.

Utilities are assessed at 16 percent of market value; and residential homes and other property are not separately appraised but are assessed at 8 percent of market value.

Lions Club, has 7 explorers registered with Robert Maier, Advisor. It is a general interest post with the subject under study changing periodically.

The Tejas District has a Campfire planned for October 17-19 for all Boy Scouts in the District. It will be led by a variety of the Explorers from Cameron and other posts within the District.

Each spring a District Scout Show is held where all units display their skills and a Team Meet each summer in Rockdale.

Camp Tanager is available for use year-round and last year camping is concluded there for eight weeks each summer.

## CITY RECEIVES CONTRACT FOR PLANNING AID

A planning assistance grant has been approved for Cameron totaling \$6,436 to aid in the City's urban renewal program.

Contract for the planning assistance was received by Mayor E. A. Perrin this week from the Texas State Department of Health, planning agency for the U.S. Department of Housing and Urban Development.

Planning assistance grants are made available by HUD to communities for preparing general plans, administrative control measures and other planning work.

Joseph McGraw, of Southwest Planning Associates, Bryan, is designated planner-in-charge and W. P. Abitation and Associates, Inc., College Station and Dallas, engineering consultant.

The contract provides for the consultant to prepare "a comprehensive development plan to guide the growth of the Municipality for the forthcoming twenty years."

Cameron's comprehensive plan is expected to be completed by mid-1971.

## Powder Puff Policeman

Brightest light in the Cameron Police Force is a diminutive young woman with soft voice and warm smile. She is armed with a chalk stick in place of a six shooter, but she causes offenders to scatter when they see her approach.

Her name is Esperanza Tamez and she is called a meter maid, but since Cameron has no meters she marks car tires with chalk and, at times, decorates windshield with traffic tickets.

Miss Tamez joined the Cameron Police Force on August 16, after the new two hour parking regulation was adopted for downtown streets. Her first two weeks were spent in relative calm, giving warning tickets while people adjusted to the parking regulation. Since then she has written about 50 over-parking tickets, which carry a 25 cent fine.

Come cool weather the 1969 Yoe High graduate will make her rounds in khaki uniform. By then she should be accustomed to the

Questions Heard . . .

## Councilmen Meet

A variety of requests, complaints, and questions heard at an otherwise routine City Council meeting Tuesday evening before adjournment at 7 p.m.

Council members approved several items of City business and referred others, pending return of City Atty. Ed Maier from his vacation.

Police Chief John Shearin asked the Council about buying stop signs for unmarked intersections. Members approved buying 20 signs and asked Chief Shearin to submit a complete list of stop sign requests to be included in the new City budget.

Streets Supt. J. B. Earle and Mayor E. A. Perrin were authorized to locate and buy two storage tanks for oil to be used in street work.

Discussion preceding the decision revealed that the City can save money and time by having oil stored instead of ordering it each time oil is needed. Earle said delays in oil delivery had slowed down penetration paving schedules.

Council members voted to continue membership in the Central Texas Economic Development District and voted to grant an extension to Hensley Russell, Inc., permitting use of Cameron Airport hangar until the firm's new building is ready for occupancy.

Mayor Perrin read a letter signed by Coleman Duncan, president of CISD school board and School Supt. D. R. Dodson. The letter expressed concern over the proximity of the Club Ebony to Cameron Junior High School.

Hubert Knight, owner of the club, requested the City Council at its August 19 meeting to rezone the 800 block of North Nolan Street so he could relocate the club at 807 N. Nolan.

Knight had filed a request in Milam County Court in June, 1968 to move the club. Residents in the North Nolan neighborhood appeared at the June 20 hearing, contesting the application.

Knight's request was denied by County Court and a zoning ordinance passed this year designates North Nolan as residential.

Mayor Perrin and Councilmen agreed that the City has no control over location of the club as long as Liquor Control Board requirements are met by the owner.

**PARKING, CROSSINGS**

Questions about the two-hour parking ordinance were discussed centering on loading zones for merchants in front of their stores. Council decided to continue the present policy of ticketing all over-time parkers.

Service and utility vehicles parked overtime because of service men working inside a building will be given consideration, Councilmen agreed.

Councilman Starrett Hickman expressed concern over the danger

involved when school children cross North Travis Street (Highway 77) at 12th Street. Mayor Perrin read a letter from Cameron Chamber of Commerce about the same crossing.

Any signs, lights, or other traffic control devices will have to be authorized by Texas Highway Department, the Mayor said. Councilmen decided to submit the problem to that Department.

Complaints about crickets were reported by Councilmen. Requests to turn out street lights at some locations were discussed, to the accompaniment of crickets chirping in City Hall.

Councilmen remembered that the City tried turning out some lights several years ago. Result was a rash of burglaries.

Another question was officially settled about the name of a Cameron street.

Clearview Street is really Clearview Street, not Country Club Drive or Golf Links Drive. A resolution passed in 1964 officially changed the name of Country Club Drive to Clearview Street. A sign will be installed to mark the street.

Present were Councilmen Lester Turner, Lawrence Zolt, Robert Clark, Hickman, Councilman R. W. Wells was absent.

## Jail Escapee Found In California Cell By Alert Sheriff

Leland Lyles, 19, who escaped from Milam County Jail on July 17, has been arrested in Martinez County, California, according to Sheriff Carl Black. He is charged in Milam County on counts of theft, jail escape and probation violations.

Sheriff Black said he had found an address in Martinez, California on personal papers of Kenneth Teal, Lyles' companion in the July 17 jail escape. He said a call to county officials confirmed that Lyles was being held on charges in California.

Black said he would probably go to California this weekend to return Lyles to Milam County.

### Play Day Saturday

Cameron Roping Club will have a Play Day Saturday, September 13, at Wilson Ledbetter Park. The Play Day will begin at 6:30 p.m. with roping and pleasure classes.

## YHS TRAVELS FRIDAY NIGHT TO WILLIAMSON

A healthy '69 Yoe-man grid squad, 274 last year, about half seniors, half juniors, renews in jet county rivalry with the Taylor Ducks 8 p.m. Friday.

It will be season's opener for both squads and highlight game in the Central Texas area. Game is in Taylor's Duck Stadium.

Coach Hal Stanislaw pushed the '69 Yoe-men through tough workouts Tuesday and Wednesday afternoons, urging his defensive starters to hold reserve backs. "You give up a yard to these boys, and you'll give up 20 yards to Taylor," he said during a scrimmage Tuesday.

Defensive lineup was scheduled to go both ways in offensive and defensive lineups released at mid-week.

John Mayer is starting center and defensive left tackle. Ronnie Richardson both ways at left guard, John Steamer at offensive fullback and defensive linebacker and senior James Laury at offensive halfback and defensive left halfback. Laury is one of the new starters this year.

Left side of the starting offensive line has size: Bill Perrin at tackle and Ronnie Richardson at guard both scale about 290 or more. Perrin had knee trouble last year. Junior Robert Brashear returns at quarterback, strong and quicker under center, Laury and junior Emanuel Thomas start at halfback, starters for the first time, and Steamer at fullback, moving from a halfback post last year.

Junior Robert Brashear returns starter at right guard, moving from fullback as sophomore. Junior James Mueck at right tackle and Marvin Young at right end complete the right forwards.

Flanking Perrin at left end will either be Martin Mueck or Mike Darlek, both seniors. At pretime, Stanislaw had not given a final nod.

Experienced tackles Glen Flint at 190 and Daugh Muennmayer at 220 give Taylor forwards size and knowhow, according to reports.

Size is apparent in William Pankonien at 190 and Phil Lehmberg at 165, starting guards, and center Herbert Brinkmeyer at 185.

Tommy Olinphint is a key performer in the Duck backfield play at quarterback and is effective on the run-pass option. Three running backs are touted in Ernest Stiba and Tim Kennedy, both halfbacks, and 130-pounder Rufus Ortiz at fullback.

### Yarborough Offers Bill To Provide WWI Vets Pension

U. S. Sen. Ralph Yarborough has introduced a bill to provide non-combat veterans of World War I.

Yarborough said the veterans of WW I are called the "forgotten veterans," because the meager pension they can get is the only veterans' pension based on a means, or poverty, test.

Veterans' benefits date back to the American Revolution, Yarborough said. He cited the GI Bill which benefits veterans of WW II, the Korean Conflict, the Cold War and the Vietnam War.

"Forty-six percent of our World War I veterans have incomes so low that they are eligible for the poverty-level pension — the World War I type of pension — the only war it applies to," he said.

The bill provides a pension of \$101 a month if the veteran served over 90 days, or \$67 a month if he served between 70 and 90 days.

## House Committee Hears Witnesses On Food Stamps

Hearings began last week before the House Agriculture Committee on the food stamp program and the big problem seems to be where to draw the line for eligibility.

Cong. W. R. Poage reported this week that witnesses suggested ways to improve the present food stamp program but failed to offer specific recommendations for eligibility.

"We got some vague suggestions that we shouldn't worry too much about the deadbeats — that they probably don't constitute more than two percent of those receiving stamps," Poage said.

He added, "that attitude might be considered charitable by some people, but we who write the law must be more realistic."

Chairman Poage, with some of his colleagues on the Committee voting endorsement of his views, said stamps should be refused able bodied men who won't work when jobs are available.

Poage pointed out that he is author of a pending bill to make the food stamp program permanent, without limitation on the total amount of funds authorized for it.

In his weekly newsletter Poage commented that free food, food stamps, clothing or housing should be confined to those who are in need and who are not able to work.

"I think if we so limit the food stamp program it will have a much better chance of surviving and assisting the truly needy for a long time to come," he said.

### NET Festival Will Show 'Encore Paris'

For the first time, films of Rencir painting, Rodin sculpting, Sarah Bernhardt playing Hamlet, and a very youthful Maurice Chevalier with a not-so-youthful Mistinguett on a French music hall stage will be seen on American television.

The old film footage from the private collection of the late Sacha Guitry is included in Frederic Rossif's "Encore Paris," an hour-long kaleidoscopic view of the hidden face of the French capital to be presented NET Festival Saturday (Sept. 20) at 9 p.m. on KLRN, Channel 9.

"Paris is not merely the Eiffel Tower, the Arc de Triomphe, Notre Dame," says Rossif, the noted French filmmaker ("To Die in Madrid"). "It is a city of tragedy as well as romance, of slums and poverty as well as of elegance and haute couture."

To capture these varied aspects, Rossif took his camera onto the streets of Paris and into the salons of personalities such as the poetess Louise de Vilmorin and the painter Labrie. He combined cinema with news footage and rare amateur movies to produce his view of the Paris the tourist never sees.

### Vets Training For Commercial Pilots

More than 25,700 veterans are currently taking flight training for a commercial pilot's license under provisions of the GI Bill, Jack Coker, Manager of the Veterans Administration Regional Office in Waco, disclosed today.

Since flight training was approved by Congress in October of 1967, a total of 38,538 veterans have taken advantage of the course.

Provisions under the GI Bill require that a veteran must first possess a private pilot's license, or its equivalent, and must meet the medical requirements for a commercial license, Coker said.

An eligible veteran entered into an approved flight course will be paid an educational assistance allowance computed at the rate of 50 percent of the established charges for tuition and fees which non-veterans enrolled in the same flight course are required to pay.

## Contract For Alcoa Seaprobe Awarded To Wisconsin Builder

PITTSBURGH, Pa. Aluminum company of America today announced that Peterson Builders, Inc., Sturgeon Bay, Wis., is the successful bidder on a multi-million dollar contract for the construction of the all-aluminum Alcoa Seaprobe.

The ship is the largest and most advanced deep-ocean search and recovery vessel ever designed.

The ship will be operated by Ocean Search, Inc., a joint venture of Alcoa and Ocean Science and Engineering, Inc., as announced July 2, 1968.

The 244-foot craft, capable of recovering 2,000-ton payloads from 60,000-foot depths, is expected to be fitted out and ready for sea trials early in 1971, according to George G. Scholley, Manager of Alcoa's Advanced Projects Division, and Alcoa Seaprobe project managers.

The Alcoa Seaprobe will have a 50-foot beam, nine-foot draft, and 2500-ton displacement. It will possess the ability to hold its position in rough seas; search, core and sample mineral deposits on the sea floor; locate and retrieve heavy objects more than a mile beneath the surface; and to perform other research and exploratory oceanographic functions. No existing or proposed ship has anything approaching these capabilities.

The hull and superstructure of the Alcoa Seaprobe will be of Alcoa-developed aluminum marine alloys. It will be powered by diesel electric generators giving it a 10,000-mile, 45-day cruising range.

## Church Extends Hand To England

Members of the Church of Christ in Cameron participating in evangelistic mission on a person-to-person basis last month. The local congregation helped send their preacher, Mr. Nelson Stark to Corby, England, where he and three other southwestern United States preachers helped a growing young church with a 10 day gospel meeting.

Stark, C. E. McGaughey and Leland Burch of Oklahoma, and B. B. Gist of Blanco made the trip by plane August 17. They landed in London and traveled by car through Robinhood country to Corby, a new industrial community of 48,000.

Stark stayed in the home of Alex Strachan, a scotchman and former commercial fisherman who is minister of the 50 member Church of Christ in Corby.

"Corby is populated by people of 33 different nationalities," Stark said, "and we met with them going door to door inviting them to our meetings." Stark said the happy influence was not evident in Corby. "We saw lots of long hair on the young men, but they were working people," he said. He said interest in religion was evident in meeting attendance.

Stark, who has been a preacher for 20 years, said this was his first ministry abroad. He said he had taken color slides which he hoped to show in Cameron of the countryside and the unique new city of Corby with its modern architecture, parks and planned shopping centers.

## Buckholts Rites For Mrs. Slama

Mrs. Anna Slama, 63, died Thursday at 7:10 p.m. in a Rosabud nursing home.

She was born October 1, 1896 at Industry, Texas.

Funeral services were held at 3 p.m. Saturday in the Hope Lutheran Church, Buckholts, the Rev. Ernie E. Braun officiating. Burial was in Oak Hill Cemetery.

Mrs. Slama is survived by four daughters, Ms. Anna Juergens of Rosabud, Mrs. Edna Ernst of Rosabud, Mrs. Milady Hollas of Cameron, Mrs. Adele Bessie of Washington, D. C.; two sisters, Mrs. Ida Stack of Caldwell and Mrs. Alma Christ of Freepport; nine grandchildren and 12 great grandchildren.

Palbearers were Gene Ernst, B. D. Melanis, Bill Frerichs, Leo Hollas, Charles Hollas, and Harold Hollas.

Marek-Burns Funeral Home was in charge of arrangements.

## Edward J. Macek Dies At Temple

Edward J. Macek died Friday at 6:15 p.m. in the Veterans Hospital at Temple.

He was a veteran of World Wars I and II and was a retired farmer. He was living with a brother in the Barclay community.

Mr. Macek was born December 22, 1896. He lived with his father, brothers, and sisters in the Hoyte community from 1920 until 1933.

Funeral services were held at 4 p.m. Sunday in the chapel of Harper-Talasek Funeral Home, the Rev. Frank Simecek officiating. Burial was in Hillcrest Cemetery, Temple.

Mr. Macek is survived by two brothers, William F. Macek of Rt. 2, Lott, and Anton M. Macek of Cameron; three sisters, Mrs. Harley Englert of Afton, Okla., Mrs. James Biskup of Temple, and Mrs. John Mauldin of Troy; and a number of nieces and nephews. Palbearers were nephews.

Denotes district games Jimmy Hawk, Head Coach; Tim Johnson, Asst. Coach.

## Milano To Host Rival Badgers

Milano will host the Buckholts Badgers Friday in a non-district season opener of fast paced 6 man football. Strong competition between the two Milano County teams is expected to be at a peak with both schools fielding teams that should be in contention for district honors.

Game time on the Milano Eagles field will be 8 p.m.

Badger coach, Jimmy Hawk, said his team was in good shape after a winning scrimmage against Jarrell last week. "We have one returning All-District, Norman Haisler, and two who made District honorable mention roles last year," Hawk said.

## Milano Eagles List 10 Games

Milano Eagles have a nine game season lineup with one open date on October 31. Game time will be 8 p.m. for non-district games, time is 7:30 p.m.

Sept. 12—Buckholts H

Milano had a 4 win-5 loss record last year and placed fourth in district. Buckholts placed 3rd in district with a 7 win-2 loss record.

Smith said he had a late start working with the team but that they were "shaping up real well and looking forward to playing rival Buckholts." Smith said they had no injuries after a rough scrimmage with Aquilla last week.

Starting offensive line-up for the Badgers will put Michael Jones, Jr., 151, at right end; Gordon Haisler, Jr., 165, quarterback; Arthur Layton, Sr., 193, L-half; David Zajicek, Jr., 145, Center; Richard Kudlacek, Jr., 136, L-end; Jerry Zelisko will replace David Zajicek on defense.

Starters for Milano will be: James Pacey at center, Joe Hen-

tie is sparked with a 22 game winning streak that carried through the 1964 and 1965 seasons. He is assisted by Tim Johnson.

Smith, a native of Hillsboro, joined the Milano faculty September 1. He is a recent graduate of Sam Houston State College. Pre-season workouts for the Eagles were coached by school administrators.

## DOORS OF YOE

By Jane Callaway

Hello again! It's good to be back—and I hope you think so, too. I have many thanks to all of you who said you missed this school chatter at the end of the year. Somehow I got too many thanks in the fire. If I have to do a week this year, just know "schedule" got a bit heavy.

I start this year with a "big end" of mixed emotions—this being my last year at Yoe High. There have been the trial and error years—the formative years. Personalities have been molded, chiefs conceived, failures acknowledged and overcome, and foundations laid for the future. However, we visualize the future, memories bring to mind "the firsts" which have been achieved.

When we were Freshmen, we looked ahead with doubt. Would we someday be Seniors? That was a dream and nothing more. Our sophomore year found us follow-

ing escapades of fun. With pen in hand, we saw ourselves through out autobiographies. This was the year we became active in the organizations and looked forward to the time when we would be the leaders in our school. As Juniors, we planned the banquet with our ideas and "earnings". We found ourselves thinking of many things. And now, we are Seniors! We have taken part in the privileges and responsibilities handed down to us. This is going to be a great year at Yoe High School!

Welcome to our new faculty members—Mr. Dusek, Coach Lawrence, Coach Minter, Mrs. Arledge, Mr. Rangel, Mrs. Wise, Mr. Wilfert, and Mr. Cannon—have patience with us because we are a pretty good "lot". Of course, that's only one point of view!

Thanks, Jane B. for your help with the college list last week. You and Patricia have fun! And thanks to Mahalia Petty for her help on the same list. Speaking of help—any time you know some news, tell me.

Pajama bottoms? To school? How sleepy did you say, Renee? Student Council officers: Carolyn Mitchell, Douglas Marburger, Gay Chancey, Renee Cummings, Georgena Anderson, and Edward Whitley.

The student office assistants (row that's a good title) were a little "unbusy" right after lunch the other day. Mr. Dodson, do you agree?

What was the question in Chemistry last Thursday, John Ben? Really think you should take the map down, Miss Rosson. And, watch out for batons that come rolling into your room.

Football time is here. Be sure you are in Taylor Friday night. Our players and coaches work real hard and deserve all our support. See you there!

Pep Rally time on Friday morning. Was it just the way it looked to me last Tuesday, or do we need a little more SPIRIT???

Mr. Carney and the band will dedicate the school song to Mr. Cox at the Friday Pep Rally. Friday night half-time will be dedicated to him also. It was a year ago Friday that Mr. Cox died. We all still remember.

Mrs. McDermott has the library all ready for the year's business. That big, thick book with the small print I checked out the other day was Miss Smith's suggestion.

Frontier Day at Yoe High on September 29! Get busy finding your "old-fashioned" clothes. You don't want to pay a fine.

Do you have a name for Tourism Day? Drop it in one of the boxes.

Now Sam, an air freshener??

QUOTE: "Nothing is as good as intelligence, but silence is a useful substitute."

## Three Sentenced In District Court

Three men were sentenced in District Court on Friday, August 29. Two of the sentences were for prison terms and one was a probation sentence, according to County Atty. John B. Henderson Jr.

Charles Robinson of Cameron was sentenced to serve three years in Huntsville prison, with credit for time in jail since August 19, 1969. Robinson had received a probation sentence on Jan. 8, 1968, for the offense of burglary. His probation sentence was revoked by the District Court for a violation of his probation (subsequent offense). He was transferred to Huntsville Prison on September 2.

Johnny C. Calhoun of Odessa, Texas, and Louisiana, pleaded guilty to the offense of attempted burglary. He received a two year probation sentence and will be under the provisions of the Texas Adult Probation and Parole Law.

Calhoun's case involved the attempted burglary of the Svetlik Grocery Store in Buckholts on May 29, 1969.

Also sentenced on August 29 was Jesse Ellison of Temple. He was sentenced to serve 50 years in prison for a robbery conviction, with credit for time spent in jail since March 1, 1966.

homa powerhouses.

The tennis match continued through singles competition with perhaps a few dozen watching while the muffled roars of the crowd in the stadium was the backdrop.

About the time the doubles matches began, the gridiron game ended, and the stadium disgorged its thousands from the various exits.

In high spirits, a few thousand crowded around those OU courts to watch the doubles, already begun.

What was "polite" comment or almost inaudible applause a few points earlier became a thunderous shout whenever a point was won, or lost.

The football fans followed football cheering rules. They cheered the home team when they won a point. They cheered the home team when the visitors missed a point, whether the error was forced or not.

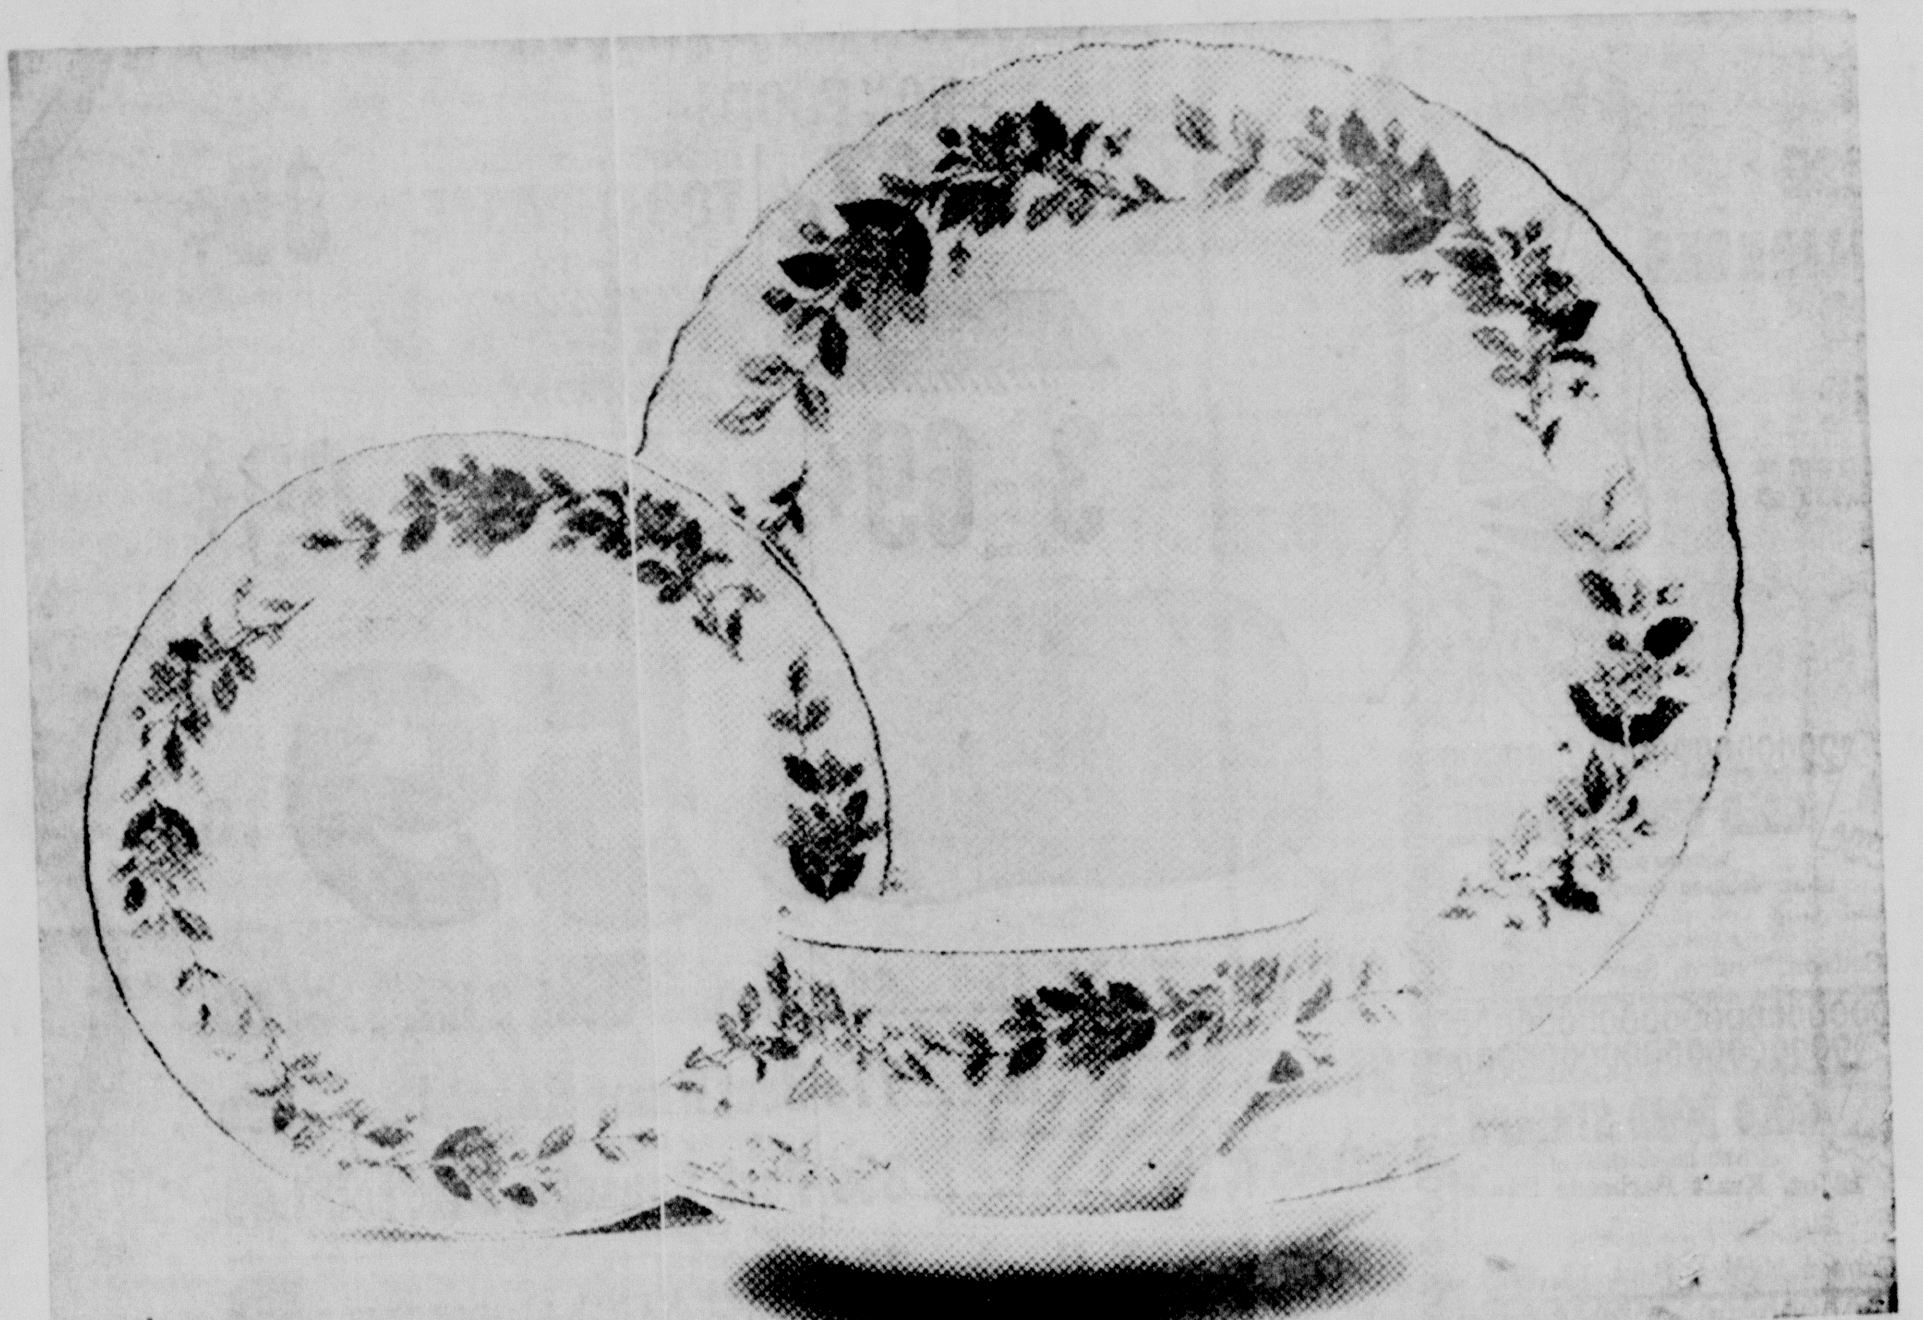

To say the least, it was a new experience for the people on the tennis courts, particularly one 19-year-old Mizou sophomore. To prove the point, the home team won that doubles match going away. They might have won anyway.

110-110-110

Modern tennis will have to create a new atmosphere so that audiences can identify and approve players' shots without shattering their concentration.

Tennis needs the enthusiasm gridiron crowds sustain. But how to spark that interest while players are to hit the ball is perplexing.

## PERSONALS

Mr. and Mrs. John Henderson, Sr. are enroute home aboard the Nader Weser following a summer in Thailand with their daughter and son-in-law. They left Singapore on September 4 and will dock at Houston October 19 after stops that include Acapulco, Mexico and the Panama Canal.

Mr. and Mrs. Billard Thomas will leave September 22 on a month-long trip across the Pacific. They will attend the American Institute of Banking convention in Honolulu, Hawaii beginning Sept. 27 and will go on to Hong Kong and other points in the Orient before returning by boat.

Following a wedding trip to Las Vegas, Nevada, they will make their home in Fayetteville, N. Carolina.

Mrs. J. A. Hood of Milano announces the engagement and approaching marriage of her daughter, Wanda Sue, to Charles D. Chandler, son of Mr. and Mrs. E. D. Chandler of Cameron. Miss Hood is employed by Public Employees Credit Union in Austin. Mr. Chandler is also employed in Austin by the Texas Highway Department. An October 18 wedding is planned.

## Leaders Needed For Cameron Scout Troops

"It is a bright future for Cameron Girl Scouts who are headed into another fast-paced year of programs, meeting new friends and being part of the local organizations largest enrollment of girls. Even financing is at a high point with a raise in operating funds from the Cameron United Fund.

But they face one almost overwhelming problem. Three troops, Brownie, Junior and Cadette, are without leaders. For 80 Girl Scouts this means losing a year of Scouting and probably losing interest in the Scout program.

Mrs. Lester Williams, neighborhood chairman for Girl Scouts, said a leader and 2 assistants were needed for Cadette troop 314 (7th, 8th and 9th grades), a leader and 2 assistants for Junior Troop 357 (4th, 5th and 6th grades), a leader for Brownie troop 373 (2nd and 3rd grades), a leader and assistant for Senior Troop 449 (high school).

Working with Girl Scouts has a distinct advantage for the potential volunteer worker. Mrs. Williams said, "Leadership can bring joys of kinship with girls, the stimulation of new adult friends, the

sincere thanks of parents, and the satisfaction of performing a worthwhile service."

Weekly meetings are held at the Girl Scout House in Wilson-Ledbetter Park, in churches, or homes, at the discretion of the leader.

Girl Scouts have traditionally been dedicated to paving a way for girls to become responsible citizens. Leaders, through the national program, inspire the girls with the highest ideals of character, conduct, patriotism and service.

Anyone interested in volunteering as a leader or assistant leader is asked to call Mrs. Williams at 697-3015.

## PLEDGES SORORITY

Marsha Ann Guess, daughter of Mr. and Mrs. B. M. Guess of Rogers and a 1969 honor graduate of Rogers High School has pledged Alpha Delta Pi at Texas Tech University in Lubbock.

The deepest continuous mining shaft in the Western Hemisphere goes 7,137 feet down. Rock temperatures on the shaft walls may range from 30 degrees at the surface to 110 degrees at the bottom.

## FLEUR DE LIS TO FEATURE LOCAL YARD OF MONTH

The Fleur de Lis Garden Club met at the home of Mrs. D. R. Dodson Tuesday evening with Mrs. George Hallas as co-hostess.

Year books were distributed and the special project committee reported on plans to feature a Yard of the Month in Cameron. A committee headed by Mrs. Bernay Dusek and Mrs. Dana Kestenberg will select a local yard each month and an appropriate sign designating it.

Two new members were elected during the business meeting. They are Mrs. Ron Derry and Mrs. D. V. Carney.

Following a program of slides from the spring flower show, cake and coffee were served in the dining room with Mrs. Bernay Dusek assisting at the coffee service.

### SBA OFFICER VISIT

On Thursday, September 18, Eugene Black, Loan Officer of the Small Business Administration, will be at the Cameron Chamber of Commerce from 8:30 a.m. to 12 noon, and at the Rockdale Chamber of Commerce from 1:30 p.m. to 4:30 p.m. to discuss financial and management assistance.

Mr. and Mrs. Emil Skupin spent the weekend with their son and family, Mr. and Mrs. Henry Skupin and Rebecca in Houston.

Ever see a raccoon dip its food in water before eating it? Reason is not to wash the food but to facilitate digestion. This because the raccoon has poorly developed saliva glands.

# TOWN and COUNTRY

NEAT is the only way to describe this aerial view of a Milam County farm. After ten years, have the saplings planted in the yard grown large by now, and do bees still make honey in the hives

at upper left? Readers may come in to The Herald office to look through photos taken in 1958, and claim theirs if they identify it.

## ASCS

By Alva E. Sanders  
Official ballots for the Agricultural Stabilization and Conservation community committee election have been mailed to all farmers in Milam County.

Two envelopes accompany each ballot. After a voter has marked his ballot he should fold it and seal it in the plain envelope. The plain envelope should not be signed by the voter because its purpose is to insure secrecy of the ballot.

After sealing the ballot in the plain envelope into the second envelope which is addressed to the Milam County ASCS Office and seal it. He should immediately sign his name on the back of this envelope on the line indicated; fill in the date; then mail the envelope.

With his signature the voter certifies he voted his ballot personally without undue influence of others. Without the certifying signature the ballot will not be counted.

If the voter signs the envelope with an "X" mark, the signature of a witness is required.

When the certified envelopes are received in the county office they are immediately placed in a sealed ballot box until they are counted by the incumbent ASC County Committee on September 18, 1969, at 9 a.m. Ballot counting is open to the public.

After certifications are checked, the sealed plain envelopes are removed from the certified outer

envelopes and shuffled together before being opened and the votes counted. Ballot secrecy is completely preserved.  
Signing the outer envelope in no way affects the voter's right to a

secret ballot.

Mr. and Mrs. Edward Hill and son of Rogers visited with his brother and family, Mr. and Mrs. Travis Hill Sunday afternoon.

## MH-B Workshop For New English

Mary Hardin - Baylor College officials have announced another workshop offering teaching the Linguistics Approach to the Teaching of English.

The "new English" textbooks are in use in area public schools this September for the first time.

Ed Mercer, Director of the Continuing Education Center, said, "We are offering this workshop again to meet the great need and request for this necessary training of teachers in our area."

Mrs. Gail Marble, who taught the previously offered linguistics workshops, will conduct the course again. The class will meet on Monday and Wednesday evenings from 7 to 10 p.m. in Ely Pepper Education Annex, room 110.

The course begins September 22 and will run through October 29.

## County Agent's Notes . . .

# Don't Plant Oats Over Herbicides

by J. D. Moore  
Farmers and stockmen are tempted to plant fall oats on land treated this past spring and summer with atrazine to control weeds in corn. There is enough residual atrazine in such fields to damage seedling oats.

The same caution applies to land treated with "Trifluralin" and "Propazine." This residual soil effect on fall sown oats is characteristic of these chemicals and this should be considered in planning for fall sown oats.

Most herbicides are potentially dangerous, but they will not cause injury if used properly and if recommended precautions are observed. Operators and handlers should read the label carefully on each container before using. If questions come up concerning the use of any chemical, farmers and stockmen should contact their chemical dealer or the county agent's office.

Further caution should be used in the use of "arsenic acid" for defoliating cotton. Quite a loss in livestock occurred in the county in the past due to "accidental" poisoning of cattle.

Defoliation guides are available in the county agent's office. Labels on the containers should be read. Empty containers should be carefully handled. Call your veterinarian if you have a question concerning the protection of the health of livestock.

Cottonseed are safe to feed livestock following defoliation of the cotton plants with arsenic acid. Further, cottonseed hulls also are safe.

These cautions are given publicity due to the questions being

asked concerning their use. There is no place for careless use of chemicals "on" or "off" the farm.

**chemicals for cotton**  
Dry weather stunted cotton, since the recent rains, will likely take on new life and thus make necessary a change in preharvest chemical use, advises Fred C. Elliott, Extension cotton specialist. He outlines what he calls a "two-shot" treatment for stripper harvesting when conditions are not favorable at harvest time. Use either a chlorate or phosphate defoliant when 60 percent of the bolls are open. If defoliation is not complete in 7 to 10 days, he suggests an application of arsenic acid to get the remaining leaves.

## T & C CHURCH CONFERENCE

For the 24th consecutive year, the Town and Country Church Conference will be held at Texas A&M University, October 9-10. The program has been planned by ministers of all denominations under the theme: "A New Era Challenges the Church." There is no registration fee and the public is invited.

## FORAGE TESTING WILL PAY

One of the big problems in properly and efficiently using forages is the wide variation in their nutritive value. Often this variation is not recognized by visual inspection, but forage testing will show the difference.

## BADGER CHEERLEADERS

Cheerleaders for the Rockhills Badgers 1969 season will be Marilyn Marek, head cheerleader, Dotie Abel, Jeanie Marek and Becky Beckhusen.

## New Jail, New Museum?

All the ill-fated publicity over the years on breaks from Milam Jail dramatizes the need to retire the present facility to museum status and to construct an adequate replacement.

The question came up four years ago along with a proposal for a remodeled courthouse, much of which has been accomplished on the interior. It was quashed at the polls.

The jail continues an element apparently easy to escape. Other jails have breaks, but not so many as Milam County.

Would it not be timely to consider

such an additional facility when the downtown urban renewal program enters its "execution" stage and land will be available?

For one, this newspaper tires of reading about ludicrous breaks about every six months in somebody's metropolitan paper.

That kind of publicity Milam County and Cameron can do without.

Perhaps it will stop if we provide a facility law enforcement officials can operate in the manner of latter 20th Century law enforcement.

## What Others Say ...

### Pentagon Off Limits?

The House Armed Services Committee, in typical and tender concern for the sensitivities of the Pentagon, has proposed to make it illegal to gather, demonstrate or protest on the Pentagon grounds, and four of its members have gathered to protest that this is unconstitutional. Unconstitutional or not, it is a wretched idea.

The Constitution says, in the First Amendment, that "Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or ... the right of the people peaceably to assemble, and to petition the government for a redress of grievances." Why should the Pentagon be exempt? Why should Americans not have right of access to it? Goodness knows that if there is one building of government in whose people and policies they have a rightful concern, it is this one. It is in this building where the lion's share of their painfully paid taxes are spent, and where policies are made or implemented that may cost them their lives.

There could not be a more fitting and

proper place for people to assemble peaceably and petition for a redress of grievances (and they have cause for more grievances against the Pentagon every day) except possibly for the Capitol. And the Capitol, as petitioning and protesting Quakers found ... has already been ruled off limits for those citizens who would gather there to make their grievances known.

What will be next, HEW? The Agriculture Department? The Supreme Court Building? There is far too much feeling among the people already that the great, impersonal machine of government has no regard for their wishes, and no ear to lend to their grievances. Some of the sturdiest roots of our discontent lie in the growing belief that Washington is bent on its present course regardless of what the people want. Will Congress justify this belief of formalizing its distrust of its citizens? Are the seats of power to be accessible only to those who can afford a lobby?

## Lawsuit Delays Effect Of New LCB Guest Rule

By Vern Sanford

Tough new rules of the Liquor Control Board to curb temporary guest card abuses at private bottle clubs cannot be enforced pending appeal of a court test case here.

District Judge James Meyers concluded that LCB rules are valid, but they should not be put into full effect until final disposition of the case on appeal.

In the lawsuit, Dallas clubs claimed the rule would close 75 per cent of Texas private clubs, many of which aren't so private. Rule would require guests to be personally introduced or physically accompanied by a club member. Bills would have to be paid by members on monthly statements, not in cash by guests.

LCB said applications for late hours (2 a.m.) drinking permits for clubs and taverns are being screened carefully. Only 18 were approved in the week before the new curfew-stretching law went into effect September 1.

Legislators battled wearily toward a conclusion of the second special session, with some indications of conclusion developing.

A Senate-written version of the tax bill came within six votes of adoption in the House. But Representatives balked at the Senate's compromise \$357.6 million tax bill which included a new "destination allocation formula" designed to collect a corporation franchise tax on out-of-state industries selling products in Texas.

Senate first turned a deaf ear to the House request for a new conference committee.

Gov. Preston Smith and Lt. Gov. Ben Barnes pressed hard for House adoption of the Senate amendments to HB 4, but Speaker Gus Mutscher said the measure remained a "bad bill."

Only really-new idea in the compromise was the destination allocation formula.

Otherwise it called for a quarter per cent increase (to 3.5) in the state sales tax and inclusion of beer and liquor under its base; five cents a pack raise on cigarettes; 50-cent (to \$3.25 per \$1,000) raise in corporation franchise tax rate; one half per cent (to 7.5 per cent of value) hike in natural gas tax; and 10 cents a drink tax on alcoholic beverages sold in private clubs and on airlines.

Rep. John Allen of Longview denounced the big-city members for failure to support the tax bill. He pointed out that 19 members from Harris County, only one voted for the tax bill. And this is the county that gets 20 per cent of the state spending, Allen said.

Allen noted that other big-city delegations voted against the bill, except for the Dallas delegation, and that 54 of the 68 votes cast for the bill, were from members from rural or small-city areas. He pointed to the coming reapportionment after the 1970 census and asked: "How will we ever pass a tax bill when Houston gets 24 members and only one of them will vote for a tax bill?"

This rural-urban split in the House was just one of many developments as the weary legislators fought to put a majority of each house together on a tax package to sustain state government during the next two years.

Senate first enacted then backed down on its unusual proposal to levy a \$1 per ticket tax on admissions to "dirty movies." Ori-

ginal bill would have designated the Commissioner of Bureau of Labor Statistics (who supervises boxing and wrestling) to review all movies coming into the state and determine those which should be rated "X" for adult audiences only. The latter were targeted for the tax. After thinking it over a couple of days, Senate bowed to the advice of members who argued that the regulation of sexy movies should be left to a separate bill, not a tax measure.

Increases in teachers' and state workers' pay, expansion of the college and university system, and improvements in the care of the mentally ill account for most of the increase in state spending.

But how to put together a tax package to provide the money was the question which troubled the legislators in the second week of the second special session.

### APPOINTMENTS

Governor Smith named Charles D. Mathews of Dallas to Texas Board of Insurance and designated Ned Price, formerly of Tyler, chairman of the major state agency.

Smith picked Reynaldo Ferrer Luna of San Diego and Frank Randall Nye Jr. of Rio Grande City as judge and district attorney respectively of the new 299th judicial district, for Starr, Duval and Jim Hogg counties.

At the same time, he selected Ted Zanderson Robertson of Dallas judge of Juvenile Court No. 2 in Dallas. Senate quickly confirmed all three. Jackson B. Smith Jr. and Wallace Harland Miller of Houston were named to domestic relations and juvenile court benches there.

Smith placed on the new Commission for Rehabilitation Mrs. Marjorie Cone Kastman of Lubbock, John David Simpson Jr. of Austin (Chairman), Dr. John James Hinchey of San Antonio, Dr. Clifford Stanley Knappe of Waco, John Thomas Bean of El Paso and Jack Burris Dale of Houston.

Capt. Richard Gerald Johnson of Beaumont, Capt. Theodore Ralph Morgan of Groves and Capt. Samuel William Livingston, Daniel Jackson Simonton and Harold Edwin Weaver, all of Port Arthur, were designated by the Governor as branch pilots for Sabine Bar, Pass and Tributaries.

James R. Ray of Plainview will serve on Smith's staff and assist the new Committee of Human Relations.

### SADLER INVESTIGATION

An investigation of allegations made against Land Commissioner Jerry Sadler under careful procedural safeguards has been proposed to the House by Rep. Temple Dickson of Sweetwater, one of the men who fought an attempt by Rep. Frances Farenthold of Corpus Christi to censure Sadler.

Dickson's resolution would require any investigating committee to give any person under investigation a bill of particulars on what is to be investigated, including all allegations made by members of the Legislature. It would require the committee to allow the subject of an investigation to be present at its meetings either in person or by counsel and be entitled to cross-examine all witnesses. Bill also would require that all testimony be under oath and that it be transcribed by a court reporter. And it would give the committee subpoena power,

both inside and outside Texas. Resolution directs Speaker Mutscher to refer the matter to an appropriate committee. Mutscher already has said that he will refer it to the House General Investigating Committee and that Rep. Dick Cory of Victoria will be chairman of that committee.

### CORRECTION

In last week's Dateline Austin, second sentence in second paragraph under Securities, should have read: "Davidson was sentenced in Harris County ..." (not "King").

## Band Booster Club To Meet

The Yoe High Band Booster Club will hold its next regular meeting, Monday, September 15, at 7:30 p.m. in the cafeteria of Cameron Junior High School.

A short business meeting will be held, followed by the showing of films by Bob Carney, band director, of various marching bands throughout the state. All band boosters, parents of the beginner band, the junior band, and the senior band, are particularly invited, along with the band students, to view these colorful films.

## OLD PHILOSOPHER

Dear editor:

According to an article I read in a newspaper the other afternoon while I was trying to make up my mind whether the right rear tire on my car could stand another boot or if I should give up and buy a new one, scientists from 20 nations met in Washington week before last to discuss the problem of getting old.

In the main speech before the group, many of whom are getting along in years, a biology professor from London said a crash program costing something like 20 million dollars is needed to explore the possibilities of extending man's

life, to where the average person would reach at least 100.

One of the ways worth exploring, he said, would be the use of an anti-oxidant chemical now used by the rubber industry to help prevent deterioration of automobile tires.

I sat up and took notice at this. If they're going to give human beings the same treatment they give automobile tires to keep them from wearing out, I'd suggest to those scientists they put that 20 million dollars out at interest to help replace the tires on their own cars. Some of them I'll bet are getting a little smooth right now.

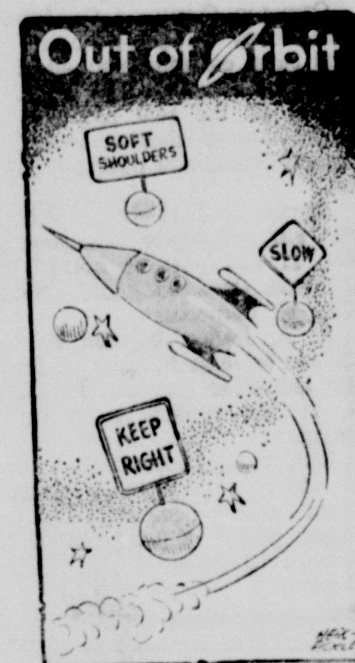

We've got plenty of humans who can outlast a set of tires, but where's the tire nearly anybody without half-trying can't outlast? I don't know what it is they inject a tire with to keep it from wearing out, but personally I wouldn't have too much confidence in a similar injection for me.

When the scientists perfect a tire that'll outlast me, then they can go to work on a human being that'll outlast a tire. Scientists are always getting their priorities mixed up. All they're doing in this instance is arguing that the average man ought to have to buy more tires before he succumbs.

Meanwhile, I decided to try one more boot on my tire. Most business experts are arguing anyway we ought to cool off the economy, although it's hard to do. When you slow down the tire industry you speed up the boot business.

Yours faithfully,  
J. A.

## "TAKE my HAND"

"Take My Hand, Daddy!" has been the age-old cry of children the world over. They were looking for security and protection. Somehow that big hand around their small one gave a thousand times more reassurance than all the words in the world could give.

Yes, the outstretched hand from child to dad is a simple gesture of surrender meaning, "I am giving my life to you because I trust you and know you will protect me." From Dad to child, it is a gesture of love which means, "I am here and will shield you."

Just hold on tight.  
Unfortunately, children grow up and no longer need the outstretched hand. But no one grows so big that they no longer need the nail-scarred hand. When the outstretched hand is the nail-scarred hand we should never let it go. It is the best kind of security... the divine security, born out of perfect love.

We may no longer need to say, "Take My Hand Daddy," but we will always need to say, "Take My Hand, Father."

### You In The Church

The Church In You — form a combination for good. Every man, woman and child needs the influence of the church. So, come let us go into the house of the Lord. Let us support her program of service to humanity, be a faithful worker, a daily bible reader and attend services regularly.

"Oh, Come, Let Us Sing Unto The Lord,"—For There Is No Variableness In God's Cause Nor In His Justice . . . Then Come, Let Us Attend Our Church Or Synagogue This Week . . . This Word Of Invitation From Sponsors Of This Spiritual Values Page.

## SAN GABRIEL-

By Mrs. Ralph Heisch  
Saturday night, Sept. 20, there will be farm information meeting at the San Gabriel Baptist Church. Plans are to have a speaker from A&M to discuss the fertilizer situation and answer your questions. Women are invited.

Those to attend the athletic banquet Saturday night at the Thorn-dale luncheon were Mr. and Mrs. Gene Northcott and children, Mr. and Mrs. James Terry and Lynette, Mr. and Mrs. Pervi Black and children, Mrs. W. W. Smith, Mr. and Mrs. Walter McDaniel, James A. Smith and Diana, Mr. and Mrs. Joe Gilchrist and children and Mr. and Mrs. Buster Guthrie.

Mr. and Mrs. Tom Wilson of New Gulf are spending several weeks at their country home in San Gabriel.

Friday night, Sept. 5, supper guests of Mr. and Mrs. Walter McDaniel were Mr. and Mrs. J. C. Payne and children of Round Rock. The occasion was in celebration of Walter and Carolyn's birthday.

Visiting Mr. and Mrs. Harry Gambill and Elaine this weekend were Mr. and Mrs. Johnny Clark and children of Baytown.

Born to Mr. and Mrs. Carlton Amess, Sept. 6, a baby boy in a Taylor hospital. Both mother and baby are doing fine. Mr. Amess is in military service and stationed in California and it will be a while before he is able to see his new son.

Mr. and Mrs. Hugh McMillan are on a vacation trip to Arkansas and Georgia. They will be away for about two weeks.

Mrs. Howard Lovelace is a patient in a Taylor hospital with surgery scheduled for Tuesday. Mrs. Jim Stewart left Sunday afternoon for a few days visit with Mr. and Mrs. Bobby Evans and Travis in Houston.

Mrs. Nora Catchings great granddaughter, Tammie Catchings had surgery last Wednesday in a Austin hospital. It was not a tumor as was first diagnosed and little Tammie has a much better chance for recovery.
